About UT Dallas Policy Navigator

This website, The University of Texas at Dallas Policy Navigator: Handbook of Operating Procedures (HOP) contains official policies and procedures for the governance of UT Dallas. The policies constituting the HOP must not conflict with The University of Texas System Regents' Rules and Regulations. Schools, departments, and other university units may have additional policies specific to them and for which they are responsible for maintenance and communication. These specific unit policies must not conflict with university policies; however, they may be more restrictive and are adopted in accordance with unit procedures by the provost, a vice president, dean, director, unit supervisor, and/or designated university official, as applicable.

Additional academic policies and regulations are also published in the University's Online Catalogs.

Contact policy.office@utdallas.edu for additional information.
